No man is an Island, entire of itself:
Every man is a piece of the Continent, a part of the main;
If a Clod be washed away by the Sea, Europe is the less, . . .
Any man's death diminishes me, because I am involved in Mankind;
And therefore never send to know for whom the bell tolls;
It tolls for thee.

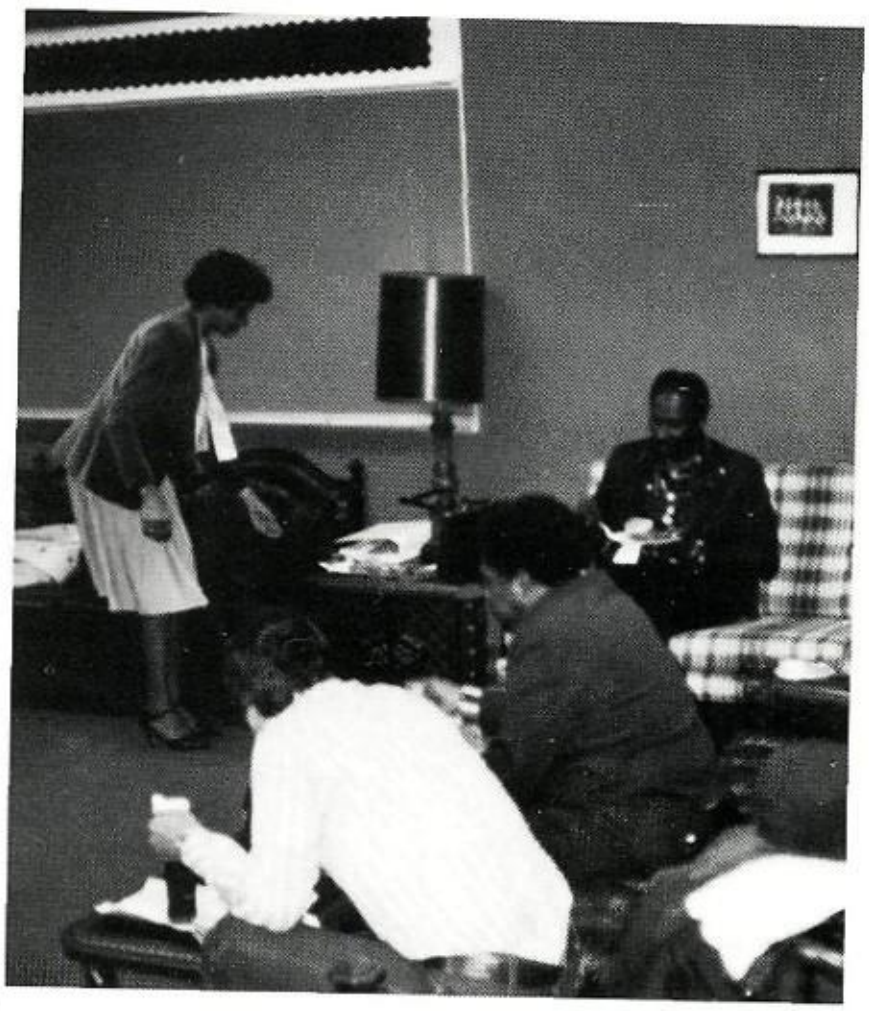
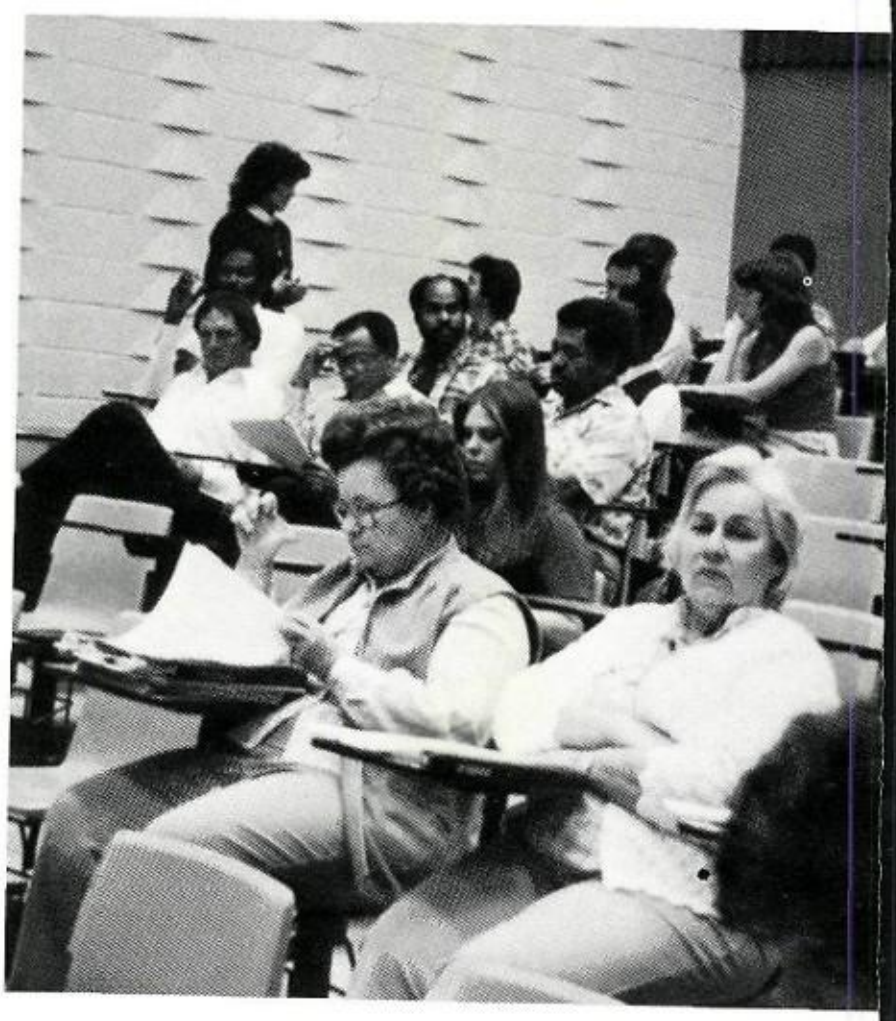
Our Faculty Worked Hard in 1981-82





Faculty members will remember 1981-82 as a year of endless committee meetings, countless faculty meetings and vague forms. Getting ready for the Southern Association evaluation in April left room for little else. We were able to fit in a Christmas party, where there was too much food to fill up even Mr. Doyle!
